## ENZA HOME BOOK / DECORATION GUIDE

We are welcoming the brand new Enza Home 2018 decoration world, which enriches the living spaces with its designs by bringing different materials together while as well as embracing the modern style.

Transforming into the center of renewal and tranquility along with the real meaning of being safe and sound becoming more and more questionable under the influence of the dynamic urban life style, our homes are becoming the most important element that affect our mood.

The true success of our design journey, inspired by the spirit of spaces, personal needs and contemporary trends, is to offer our users a wide range of lifestyle concepts ranging from furniture to carpets and accessories along with sustainable material preferences, luxurious touches and bold constructions. Converting these concepts, which shape the concepts of aesthetics and comfort with personal needs, into arressible living spaces emphasizes our innovative and creative roots which are fed by our understanding of design. In order to enrich our modern design world, which directs the trends with the designs that have vision as a decoration guide, with different perspectives we have brought 6 successful names together who are pioneers in their own field in Enza Home Book. Composed of architects and designers 6 creative people from different disciplines have created stylized spaces in the light of their visions with Enza Home's new season furniture.

While designing the future, creating the timeless spaces that appeal to the human soul by setting out from the symbols of the past, the peaceful, comfortable, stylish and innovative living concepts of the Enza Home are now on the pages of Enza Home Book.

## 2018 TREND REPORT

# Outstanding Aspects Inspirational Regulations

The brand new season styles in which the multiple design detail brings the aesthetic and the spirit into living spaces simultaneously, are giving life to the strong, luxurious and impressive decoration styles from past to present. While sharp geometrical lines are coming together with soft materials, outstanding eclectic touches are enriching themselves with valuable details inspired by nature.

In Enza Home 2018 collections, where we encounter an elegant creativity that involves combinations of impressive brass and golden colour applications that crowns the sense of tranquility and comfort in living spaces, artisanal lacquered surface applications are emphasizing the timeless stance of the wooden materials. Deep colour alternatives that give the decoration a sense of spirit, are placing the glory of the past right on the center of 2018 trends by coming together with striking velvet fabrics. Radical combinations between various materials such as metal, glass, wood and marble are creating the inspiring and modern living spaces by redefining the concept of sustainability with an authentic sense of aesthetic.

NAVONA LIVING ROOM p. 30

# Contemporary Definition of the *Luxury*

FOCUS  
**Shining  
Charm of  
The House**

When properly used, lighting designs with their ability to deliver us the desired effect in the decoration, are indispensable for a room no matter by what style it is decorated.

With the unlimited variety of forms and materials due to the changing trends, the pendant and floor lamps that come to the forefront in the new season, are ready to be the star of your decoration.

# How to find the best lighting?

In a room, the decision of which floor lamp or pendant lamp should be used depends on physical conditions of the room as well as decoration style. It is important to choose lighting designs correctly according to both general decoration style and the needs of light in that space.

Here are some tips for choosing the right lighting that you need:

- You can use pendant lamp designs without any problem in large areas such as living rooms with standard or above standard height ceiling. You can easily eliminate the need of light in a stylish way with the pendant lamp that you choose based on the size of the room.
- Multi-pendant lamps that are being used especially over the dining tables are one of the most popular designs of the new season. The most important point of this implementation is to be aware of designs that are used together whether complementary to each other or not in terms of their colour, material and style.

- If you have small squared living space due to physical conditions for instance, you can use dimmer switch that allows you to control the intensity of light. Thereby, with a single lighting design you can create many different ambiances.
- Using different kind of lighting designs together, such as pendant and floor lamp, that meets the needs of light of the different angles of the room, will be an effective solution.
- Sometimes single pendant may be insufficient to meet the lighting needs of a room. In such cases, you can use floor lamps in different sizes at different point of the room alongside with the pendants. Thereby, not only you can expand your lighting options, also you can add elegant details to your decoration.
- Using floor lamps in rooms with low ceiling instead of pendants will prevent the low and depressive appearance. In addition, choosing a light design that is relaxing and eye friendly, will allow you to create a peaceful and calm ambiance.

## Plain Elegancy

Inspired by the philosophy of less is more, modern designs that emphasize calmness and lightness in the decoration are challenging the exaggerated decoration styles. Minimal and elegant designs that arouse a sincere spirit in the decoration are making a strong impression with their plain elegancy in the brand new season of Enza Home by allowing the natural reflections by using calm colour palettes that spreads out the light freely.

ENZA HOME GUEST

**DİCLE HÖKENEK****“Modern Lines, Pastel Colours”**

We have given our “Astoria Dining Room” design to Ms. Dicle Hökenek, for her to create a space for us. With combinations and drawing of the concept and accessories suggestions, she designed a place where simplicity and balance are at the forefront. While we were taking pictures of this special dining space, we have talked about her inspirations and the brand new decoration trends of 2018.

**What does it mean to design for you?**

For me, design is a concept I have studied at every scale of life in every field. We have a story and a designer of many products from the streets we walked in the city to the furniture we use in our homes. For this reason, a good design comes to the forefront in every area in regard to the user experience and its contribution to the environment. Designing for me is a journey of discovery in each area from an architectural scale to a product design scale. I evaluate as many parameters as possible in each new topic I deal with and I do a lot of experiment. I think the important thing is that the designed space or an object should be far away from the exaggerated details and it should come into life with minimal and simple suggestions.

**When you were designing this place, what inspired you?**

The space explores an aesthetic balance connection between past and future. It appeals to the wide range of people with various material and different surface combination options. Designed as a modern apartment building located on a high residence in Istanbul, this space offers a consistent language with the brand's rich heritage and space conception by combining simplicity, elegance and functionality with tradition. Dining areas are generally the background area in the living spaces and the usage frequency varies from person to person. We wanted to emphasize that this space is an important part of the living space by associating it with a fireplace. The fireplace, which separated the space into two different spaces, served as a transparent wall in space with its geometry and material language. We set up a relaxing after-meal rest area between the dining area and the fireplace and balcony area. In this way, we can say that to design the different field experiences without boundaries between each other made the place more livable and enjoyable.

**How should we use the Astoria Dining Room within decoration? And what are the essential components of it?**

The modern lines and the pastel tones of the selected colours in the Astoria Dining Room can fit in almost any space. Basically, I think it would be more appropriate to use natural materials to contrast furniture. I would recommend wooden wall surfaces, woven carpets, flooring in light colour tones and lighting elements with brass details in particular. With brilliant details and modern interpretation of the accessories, it will be possible to transform simple and minimal spaces into stylish and elegant spaces.

**What are the outstanding trends of 2018?**

There is a controlled balance between style and comfort, when this balance is achieved, different approaches make the space accessible for everyone. With this understanding, the approaches that will reflect the spirit of the time they are in, but never become obsolete, should come forward. When living spaces are being designed, it is important that the colour, texture and furniture to match the user's past, culture, general enjoyment. We will continue to feel the pastel tones, minimal designs and Scandinavian inspiration we have become accustomed to see in 2017. Again simplicity, harmony and warmth all together will come to the fore. It is essential to create a stylish and intimate atmosphere when a balanced combination of soft wall colours and natural materials is provided.

In the context of returning to the past, the use of rattan chairs and lighting again will create modern and warm spaces in conjunction with this Scandinavian influence. Specially designed floor and table lamps, handmade ceramics and glass vases, sculptures, potted flowers, especially skulents will continue to colourize the living spaces.

Finally, in 2018, instead of using moving textures such as wallpaper on the wall surfaces, graphic works of modern painters and oil paintings on the soft wall colours will be at the foreground again.

"In the this place which was imagined as to be located on a high residence floor, I have created a balanced and calm atmosphere by using interior landscape elements and the modern fireplace proposal again with a natural material, the calacatta white marble. In order to be compatible with the brass details of the Astoria series, we have repeatedly placed the brass accessories at different points in the room with a balanced layout. We have worked with an understanding that puts the place on the background as possible in order to outline the minimal lines and colours of the Astoria Dining Room."

**MEVCE & EREN ÇIRACI****“Contemporary Places in the Nature”**

We have given our “Astoria Sitting Group” design to Mrs. Mevce Çıracı and Mr. Eren Çıracı, for them to create a space for us. With combinations and drawing of the concept and accessories suggestions, they designed a place where simplicity and balance are at the forefront. While we were taking pictures of this special dining space, we have talked about their inspirations and the brand new decoration trends of 2018.

**What does it mean to design for you?**

We can say that for us design is to find an idea about a space or object. This idea may be related to material, technical and usage as well as personal experiences and other things that inspire us.

**When you were designing this place, what inspired you?**

We have many projects in nature that we have designed, so we have works on the relations of nature and contemporary spaces. In preparing the venue, we designed a space which can reflect the very characteristic of the Astoria Sitting Group and in which the simplicity and minimalism are at the forefront by using natural materials in this context.

**How should we use the Astoria Sitting Group within decoration? And what are the essential components of it?**

Creating combinations with different fabric options will help the furniture to stand out on their own, as well as strengthen their relationships with the space. Especially simple metal coffee tables and lighting products will be good choices for completing the Astoria Sitting Group in contemporary spaces. The strong colours of the Astoria Sitting Group can be foregrounded with matte dark marble and raw wood textiles, which will be used in the room.

**What are the outstanding trends of 2018?**

We think that primitive forms and eclectic combinations that do not take themselves seriously will come to the fore.

**Mevce Çıracı****DESIGNER****FIELDS ARCHITECTURE AND DESIGN**

After graduating from Istanbul German High School, studied industrial design at the Central St. Martins School of Art and Design in London, Mevce has worked in London for designer Ross Lovegrove's studio in product development projects for various brands including Vitra, Danese Milano, Artemide, Yamagiwa and Kenzo in the period of 5 years. In addition to the projects she conducts in the name of FIELDS, she has been teaching material and production courses at the Industrial Design Department of Istanbul Bilgi University.

**Eren Çıracı****ARCHITECT****FIELDS ARCHITECTURE AND DESIGN**

After completing his high school education at Robert College and after studying architecture at Istanbul Technical University he got his master degree from Yale University. Eren, who won the James Roger Gambles and Cesar Pelli awards for his achievements in architectural design during his graduate studies, has worked on large-scale projects in Europe, the Middle East and North Africa at Zaha Hadid Architects in London. In addition to the projects he conducts in the name of FIELDS, he has been working in the architectural design studio in the Department of Architecture of Istanbul Bilgi University.

“We wanted to design a space that reflects the relationship between nature and contemporary space. We used the natural materials in a simple way to reveal their own characters. We brought the bright colours of the Astoria Sitting Group to the forefront with matte dark marble and natural wood textures we use on the floor.”

**MURAT ARMAĞAN****“PEACEFUL AND ROMANTIC”**

We have given our “Angel Dining Room” design to Mr. Murat Armağan for him to create a space for us. With combinations and drawing of the concept and accessories suggestions, he designed a place where simplicity and balance are at the forefront. While we were taking pictures of this special dining space, we have talked about his inspirations and the brand new decoration trends of 2018.

**What does it mean to design for you?**

Design is a search for life, for objects and being, reshaping... It is these features that excite me in this profession, which is constantly try to understand, reinterpret and develop solutions. Every new idea and solution that I add into life is like a new meaning. Approaching our living spaces with a design-oriented perspective and giving every object a magical functionality open up ways to enhance our comfort.

Design projects that approach humanity and nature with empathy have always been more successful. To listen at the phase of learning, to watch it in use and to examine what is naturally made when passing through that process is the phase of to understand why it is done like the way it is.

**When you were designing this place, what inspired you?**

I wanted to see the awakening of nature and the freshness of the morning in the general atmosphere of the place. I wanted to create a living space that acts peacefully on the day where the relationship between outer space and interior space does not break. I created high glass gaps, through which we can easily reach to the nature and at the same time which welcome the daylight completely in. I also wanted to emphasize every furniture that makes up the Angel series with the simple and contrasting geometric elements in the space. With a peaceful and inviting approach, I imagined a space where both the hosts and the guests can accumulate loving memories.

**How should we use the Angel Dining Room within decoration? And what are the essential components of it?**

The Angel series has a lean geometry, as well as Retro lines and a strong form language that links the past to the present. The dark

gray wall colours can emphasize the strong design in the room. We can strengthen the space with accessories that are supported by popular materials like rose gold and copper. Brilliant white ceramic objects can be used with group of brick-framed photos group walls that reflects the experienced memories. The aged marble can be supported by Hellenistic sculptures that do not compete with the identity of the series. A balanced presentation can be created on warm wood flooring alone or with dark coloured thick carpet textures on light stone floor. Green plants with small leaves can warm up the space with white-copper pots.

**What are the outstanding trends of 2018?**

Our homes will be decorated to welcome us with a positive outlook and create a peaceful mood. Personalized spaces with rich accessories will be complemented with natural colours. The moldy green and fennel colours with copper materials will complement the anthracite tissues that emphasizing today's industry. Anthracite and blacks will be used with softer and organic forms.

People are now wants to encounter more intimate and living objects with small details that shaped with a little bit of story. These soulful objects that fill the basic functions will be more in touch with users with special materials, lightened cultural patterns and typographies. I love materials such as brass-copper in remarkable accessories and lightings that are used with minimal geometric furniture.

The easiest way to reflect a modern approach with a strong style is to offer the ideal solution for quickly revitalizing places.

"I wanted to see the awakening of the nature and the freshness of the morning in the living room. I designed a spacious environment that filled the daylight in from every direction and added a romantic touch with dominant pastel colours. I have enlivened the home environment which in relation with nature and has high glass voids, where the internal and external space relation does not break. I enriched this peaceful family atmosphere with Angel Series furniture, which has a simple romanticism of Enza Home."

# Sweet Dreams Are Made in Here

The sweetest sleep is the one that comes when relaxing or watching TV on a sofa. It is the sense of freedom that comes with a little rebellion, which is against the obligation of going to bed or sometimes it is a way of sleeping which gives more pleasure than sleeping in the bed. Sometimes it is a hospitable alternative for a guest and sometimes it is the luxurious relaxing place for a tired body.

### Functionality Focus on Comfort

Feeling of comfort is the only thing we seek at home for our bodies and mind, which wear out by the end of a hectic working day. And at this point, sofas are our best saviors, which are the center of comfort besides their strong impact on decoration.

TAYLOR Three Seat Sofabed

Taylor sofa, which shines out with its abilities to turn into a bed and to create free spaces due to the armless design, is a stylish and functional comfort center especially in the small spaces.

ENZA HOME GUEST

**NASIR MAHMUD****“Perfect Harmony”**

We have given our “Arte Corner Sofa Set” design to Mr. Nasir Mahmud, for him to create a space for us. With combinations and drawing of the concept and accessories suggestions, he designed a place where simplicity and balance are at the forefront. While we were taking pictures of this special dining space, we have talked about his inspirations and the brand new decoration trends of 2018.

**What does it mean to design for you?**

Design is constant problem solving very much like life itself. It requires an ability to take common sense decisions in response to even the most complex of problems. As designers, our training, expertise and experience hone our ability to identify problems and design creativity becomes our intervention to achieve necessary solutions. Successful design is to leave things better than the state you found them in utilizing efforts that are simple but significant.

**When you were designing this place, what inspired you?**

I love the flexibility of the Arte Corner Sofa and its ability to transform like a chameleon to adapt to its surroundings. I thought it would be wonderful to design a space that too adapts like a chameleon to light, the different times and moods of the day and seasons. The modular glass wall with beveled modules coming together to form a reflective whole forms a magnificent backdrop for the sofa. The antique finish of the mirror wall juxtaposes the clean crisp lines of the Arte Corner Sofa and creates warmth and texture on a reflective surface. I have kept things simple and the colours limited, preferring to create exciting modular back drops for an exciting piece of furniture. The Arte Corner Sofa takes center stage juxtaposed upon a classic floor of black and white that knits the space tightly into a welcoming yet exciting whole.

The ceiling, like the floor also celebrates traditional geometry in its layout and is a composition of narrow thin slots with discrete down lighting. A single painting is placed on an easel expressing itself as a special piece of value with the flexibility of being moved around to correspond to the different modular variations of the sofa. I wanted to create a space that utilizes the ability of the sofa and is both exciting and relaxing.

**How should we use the Arte Corner Sofa Set within decoration? And what are the essential components of it?**

The Arte Corner Sofa Set offers a very exciting decorating experience for users with the advantage of modular use.

I have used the maximum configuration of the Arte Corner Sofa since I want the sofa to look very linear and truly reflective of the sofa's capability to allow seating and lounging in a sprawling way. One can use it in many different ways and I would love to see the modules being rearranged in front of the mirror wall in different seating layouts transforming like a chameleon. It is a modern piece and its modernity should be juxtaposed with modern expressions of tradition to create visual interest and balance.

**What are the outstanding trends of 2018?**

These are exciting times for interior design and technology has and will provide wonderful opportunities in manufacturing, finishes as well as embellishment.

I see the coolness of metal and mirror to bathe space in being used frequently. I also see an elegant use of brass, copper and gold in metals bringing vintage charm to modern expression. For the same reasons with the ability to create porcelain and ceramic in yet larger sizes; I see these materials evolving from the floors to the walls and perhaps even ceilings. Ceilings will no longer be just a backdrop for light fixtures but be discreet light fixtures in composition themselves. I see warmer neutral colours being used as a backdrop for colour and texture. Pairing the warmer colours with layers will surely excite.

I see an emphasis on quality and value with a preference upon fewer pieces of greater value than otherwise. There will be an even greater emphasis on fit, finish and performance in the year to come.

DESIGNERSEAST**

Nasir Mahmud is an architect by profession and currently sole proprietor, principal and CEO of designerseast, partner in NK Interiors and partner in Sustainability for Life.

Born in the city of Multan, Pakistan, Nasir spent his childhood in the colonial bungalows of colonies of the Pakistan Railways, which contributed towards the evolution of childhood dreams to become an architect.

He graduated in Architecture from the King Fahd University in Dhahran, Saudi Arabia in 1985. After traveling and working abroad, he returned to Lahore in 1986 and taught Architecture at the National College of Arts for the next seven years.

He started practicing whilst teaching when a few residential commissions from family friends prompted a one-room office and the birth of designerseast in 1986. When he left teaching in 1992 to concentrate on the practice, designerseast had begun to grow, diversify and make a name for itself. Today, designerseast is a critically acclaimed and widely respected award winning design practice in architecture, interiors, planning, landscape design and development consultancy based in Lahore, Pakistan working nationwide and internationally. The practice works in Pakistan, and in the UAE, UK and USA.

Nasir sat on the board of directors of the CRC (Conservation & Rehabilitation Center) an NGO dedicated to the conservation and preservation of the built environment from 1994 to 2010. In 2006; The CRC was awarded the UNESCO Asia-Pacific Heritage Award for Culture Heritage Conservation of The Uch Monument Complex in Uch Sharif Pakistan.

Settled in Pakistan, Nasir is socially active, well known and respected amongst his peers, friends and clients. He is a member of PIID (Pakistan Institute of Interior Designers), Pakistan Green Building Council, Anjuman e Mimaran, a life member of the PCATP (Pakistan Council of Architects and Planners) and an associate of IAP (Institute of Architects Pakistan).

Happily married Nasir has 3 children and lives in his award-winning home in Lahore.

“I love the flexibility of the Arte Corner Sofa and its ability to transform like a chameleon to adapt to its surroundings. I thought it would be wonderful to design a space that too adapts like a chameleon to light, the different times and moods of the day and seasons. The reflection will allow the mirrored wall to extend the scene to unlimited sensibilities. I wanted to design a space that comforts the functional functions of the sofa and makes it as relaxing as it is exciting.”

How to Create  
a "Gallery Wall"

"Gallery Wall"  
Step by Step...

**Characteristic Walls**

Out of essential principles, the things, which make a home decoration more characteristic, are the subjective elements that are used as a style of expression. One of these elements is the wall design. All you need is your walls and paintings to make your home more dynamic and stylish. Here is a method, which allows you to create a perfect "Gallery Wall", while preventing you from damaging your walls.

Enza Home 2018 Painting Collection to complete your decoration is in Enza Home Stores.

1. GINGER, 2. EFFECT, 3. SPACE, 4. RIVER, 5. DOTS, 6. HENNA, 7. RUST, 8. DREAM, 9. NY, 10. LIGHT, 11. PINKO, 12. BLUR, 13. SPIN

**1** **Construct a Profile**  
Cut the profiles that you draw on the paper according to your frame sizes.

**2** **Try Different Combinations**  
By using masking tape paste them on the wall. Try different combinations until you reach the perfect layout.

**3** **Mark the Tenterhook**  
Measure the length between peak point and tenterhook of the frame and mark it on the profile.

**4** **Hammer and Hang**  
Put the paper profile on the wall and hammer it directly into the mark on the paper, tearing it away after.

**ESRA KAZMİRÇİ****“Waking Up To Nature”**

We have given our “Astoria Bedroom” design to Mrs. Esra Kazmirci for her to create a space for us. With combinations and drawing of the concept and accessories suggestions, she designed a place where simplicity and balance are at the forefront. While we were taking pictures of this special dining space, we have talked about her inspirations and the brand new decoration trends of 2018.

**What does it mean to design for you?**

Design creates new values by introducing new products into our life. I can say that a design which aims for a resolution can transform everything which has no functionality into something totally different and meaningful.

Freely created designs that are created by the creative professionals who can reflect their own taste and professional knowledge upon their work, makes life a lot more enjoyable. An interior architect must have the visual skills and the ability to create, to taste, to plan and demonstrate. They must travel, visualize, broaden their vision and perspective, follow innovations and use their imagination to the full extent.

Designing a place is an individual, creative, satisfying, fun and enjoyable time period for me. You become more energetic as you produce. If you have a profession that you love, you are very lucky. When you see the happiness statement on the face of your customer at the end of the work, I can say that this is the most delightful part of this process that you can experience.

**When you were designing this place, what inspired you?**

In addition to starting the morning energetically in the morning, it is very important for us all to throw all our tiredness and to have a peaceful sleep after a stressful day. As a matter of fact when designing this place it was my priority to be able to give this feeling to the users. I did not hesitate to use dark colours because it was a bright room that was placed in nature. I created a reading corner because the size of the room was available for this. Creating a setting where you can listen to peaceful music with pendant lighting near the bedframe will calm you down and prepare you into a cozy sleep experience with the help of a short reading period.

**How should we use the Astoria Bedroom within decoration? And what are the essential components of it?**

I increased the depth of the room by using diversified mirrors in different sizes. I have created mobility in the room by using the mirrors in geometrical form on the revetment wall between the closets. Instead of direct lighting, I used pendant lightings to provide a smoother and more homogeneous lighting. I have brought the furniture into the forefront by using more darker colour on the lacquered panels which was used on the headboard.

**What are the outstanding trends of 2018?**

In 2018 decoration trends, maximalism, comfort, flexibility and being connected to the nature are in the forefront. There is a more eclectic approach. We can say that there is a sense of returning to nature in regard to the wallpapers. Tropical plants and floral patterns, amingolar, geometric patterns and textured wallpaper applications are quite popular. Golden colour, emerald green tones and pale pink tones are attracting attention. As for the fabrics, velvet upholstery, nubuck and leather are also in use; but the patterns on the fabrics are standing out. Such as ethnic, chevron (zig zag) and geometric patterns. As for furniture and accessories, almost every type of metal (black, gold, brass, bronze), walnut, oak, natural wood, natural handmade details, tropical and abstract geometric patterned cushions are standing out.

**ESRA KAZMİRÇİ ARCHITECTURE**

Born in Adana in 1970, Esra Kazmirci graduated from Bilkent University Department of Architecture and Environmental Design - Interior Architecture in 1991. In 1992, she took graduate courses in the same department but left school before completing her thesis. The same year she went to Florence to study Italian language. Then she returned to Istanbul and worked for a short time at Vakko Home. She worked as a decoration editor for different decoration magazines for 3 years. Later on she started to work at his own family company, Çukurova İnşaat. In 2006, she left the family business and continued to work as an Interior Architecture. In 2012 she founded Esra Kazmirci Architecture. She is continuing to work in many fields such as residence, villa, office, hotel and yacht designing with her team of eight people at her office in Bebek. Esra Kazmirci is married and the mother of two children.

“ It was important for me to set up a place where I would enjoy the peace and joy of waking up in the morning. Powder-pink bedding and furnishings of Astoria Bedroom were my priority to ensure this calmness. The landscape that dominates every tone of green which is opparating as a painting behind the wide woodwork is the side thing that help me to support this concept. And my accessories and fresh flowers are indispensable.”

FOCUS

# Light of Sleep

Lamps, the irreplaceable elements of bedrooms, besides being a dim and relaxing light source for the general ambiance of the bedroom, are becoming one of the important elements of the decoration in the way of new trends with their innovative materials. So what are the key points of choosing a lamp for bedrooms?

GRID Lamp  
Soon in Enza Home

### 1. Choose a lamp that will go well with the dominating colour of your bedroom.

If you want to underline the source of light in your bedroom, you should prefer remarkable colours. For more neutral effect, a lamp with a soft colour is the ideal.

### 2. Shiny metals for a modern and effective ambiance.

Lamps, which take their place in the new season in a wide range of colours from copper red to silver, is adding a modern and stylish touch to living spaces.

### 3. Earth shades with warm and cozy effects

Lamps with dynamic earth shades are making the light to spread into the room with much softer and warmer effect.

### 4. Contemporary and outstanding ambiance with industrial designs

You can create an attractive ambiance by using trending industrial designs of the new season, in which natural wood and metal come together.

# INNOVATIVE Hybrid Technologies

Offering a unique sleeping experience with its innovative and pioneering design quality since its foundation, **YATAŞ** offers seamless sleeping with HYBRID SERIES mattresses made up of various combinations of spring, visco, foam and fabric technologies which are suitable for every kind of body type and personal comfort needs by taking advantage of the latest technological developments.

Usage of many different advanced technologies in the mattresses of YATAŞ HYBRID SERIES, helps to protect the spine's natural curves overnight while perfectly complementing the contemporary design world of **ENZA HOME** which promises a unique visuality, functionality and comfort. We examined 5 mattresses within the HYBRID SERIES collection of Yataş, number one mattress brand of Turkey, that offers a unique experience of sleeping where the mental and spiritual renewal needs of the body is fulfilled.

1

**FIVE-Z MATTRESS  
HYBRID SERIES**

Produced by space technology, the 60 DNS visco elastic pads that are used on both surfaces of the mattress speed up blood circulation and end tired awakening. The 5-zone pocket spring system located at the center of the mattress provides special support to 5 different areas of the body which provides the custom fit to your body structure.

2

**SEVEN Z MATTRESS  
HYBRID SERIES**

While providing individual support to each region of the body with the natural latex layer and 7 zoned pocket spring structure, Seven Z Latex mattress dampens the body pressure and reduces the turning movements during sleep by providing a very comfortable sleep in less position with its flexible structure.

3

**SMART TRACK MATTRESS  
HYBRID SERIES**

With the world's first memory-based spring system Memory Coil in the Smart Track mattress, your mattress gets more air and prevents unwanted springs. It fully responds to the convex points of the body such as head, neck, waist, and hip, and reacts instantly to body movements.

4

**ZERO GRAVITY MATTRESS  
HYBRID SERIES**

The world's most advanced spring technology Wallaby is only in Yataş! Thanks to Wallaby springs with coil-within-coil technology, regardless your body profile and your habits of sleeping, Zero Gravity provides you the exclusive support and you do not feel the gravity while sleeping anymore.

5

**SUPREME COMFORT MATTRESS  
HYBRID SERIES**

Coming to forefront with a hybrid of Visco elastic memory foam and micro pocket spring technology, Supreme Comfort has excellent pressure damping and support especially for the most sensitive area of the spine.

### TESLA Technology

Tesla technology is available in a special fabric woven with magnetic yarns that have magnet feature. Magnetic energy-sensitive pineal gland in our brains excretes melatonin hormone, which regulates sleep rhythm, relaxes muscles, strengthens the immune system. The magnetic field heals the blood circulation by acting on the iron oxides in the blood. The fact that Tesla Technology has improved sleep quality has been scientifically proven in the sleep laboratory in Japan.

### UNIQUE COMFORT, NATURAL LATEX

Latex material is a unique filling material beyond its natural form. Its flexible structure damps extreme pressure, reducing rotational movements during sleep and provides a much more comfortable sleep in less position. In order to use the best quality and environmentally friendly latex in the Seven-Z mattress, the rubber core is only supplied from certified forests with controlled cultivation. It is used with harmless methods to human being and the environment.

### SILVER THERAPY Mattress

The Silver Therapy Mattress protects the first day's form for years with DHT Spring System consisting of double tempered steel spring exclusively designed for Yataş and high comfort filling material. Silver ions prevent bad smells.

### WEDDING PREMIUM Mattress

Designed for long-lasting associations and brand new beginnings, the Wedding Premium Mattress ensures that spouses are not being influenced by their involuntary turning motion during sleep with the 5-Zone Pocket Spring System, which provides independent support for different parts of the body.

## KING MASTER MATTRESS

Yataş celebrates its mastery over sleeping quality with King Master 10,000 special handmade mattress. Get ready to experience the unique sleeping experience that combines award-winning Posturflo HD and Hi-Low spring technology with the 10,000 spring comfort in a single mattress blended by Yataş Mastery.

The King Master 10.000 mattress provides excellent support by instantly detecting all points of body that are touching the matterss, with the Hi-Low spring system with long and short springs in its core and the Posturflo HD spring technology that consist of smallest pocket springs in the world. The King Master mattress's award-winning spring technology, which features 10.000 intelligent springs that work tirelessly, provides high air permeability.

### World's Smallest Pocket Springs

Posturflo HD

Air permeability is very high in Posturflo HD spring technology made up of the smallest pocket springs in the world which are only 2 cm high and 3 cm in diameter and thanks to its high elasticity, Posturflo HD spring technology surrounds the body and supports all pressure points correctly.

### The Best Sleep in Your Life is All Hand Made!

Master Hands

In King Master 10,000, the satin fabric with a smooth, silky appearance that envelops the mattress is fully combined with the inner layers of the mattress by using hand workmanship.

### Personal Comfort

Hi-Low

The Hi-Low spring system consists of one long and one short spring. Long springs supports the body softly before the perfect spine support. As long springs decrease in height, short springs enter the circuit. In areas where your body needs support, all the spring work at the same time, providing a perfect spine support that is suitable to you no matter what your body profile is.

### End of Tiredness

Active Support Technology®

During a good night's sleep, the Hi-Low spring provide support and comfort to your body, resulting in natural sleeping movements that allow the muscles to relax.

Beds are the essential elements of bedrooms, no matter what kind of style they have. The most important things to choose this essential element are the personal needs such as usage purpose, style and functionality of the bed.

While uniting the maximum ergonomic features with durable and stylish bed designs by using the latest technological developments, Yataş Bedding is paying sufficient attention to functionality as well. Yataş Bedding, which cares about functionality of our living spaces that are getting smaller as days pass, is presenting the most elegant examples of the functional design, which creates perfect storage spaces.

# Interior Functionality of Wardrobe

## Organizing Experts

Using all the advantages of profitability by creating extra spaces is affecting the quality of daily life directly in the contemporary living spaces that are becoming smaller as the days go on. And therefore the decorative designs that can organize the homes and create alternative storage sections are becoming the epitome of the contemporary sense of design. Being the places of relaxation and regeneration bedrooms are important parts of the homes where we need the order at the most. Drawers that organize the belongings, storagebeds and wardrobes that can provide extra storage and dressing tables that create extra sections for personal care products are the ideal choices for the ones who need essential organization in their bedrooms.
